MEMOR 11 FAMILY

Superior performance with Memor 11 family

The Memor 11 family of mobile computers is designed to provide a versatile solution for today's mobile workforce. If flexibility is required in Retail, Warehouse, Manufacturing, or Transportation & Logistics applications, the Memor 11 family is built to meet your customers' needs. Options between Wi-Fi only or Wi-Fi/Cellular models will always stay connected whether use cases are within indoor premises or on-the-go.

Rugged and compact design and improved scanning performance

A bright 5-inch touch display enables effortless user interaction, while still in a slim form-factor to enhance its usability. Heightened scanning performance in dark warehouses or outdoor environments with the high-end 2D scan engine, plus increased accuracy and efficiency when paired with Datalogic's exclusive Green Spot Technology in scan-intensive settings.

RUGGED AND COMPACT DESIGN

Withstands more tumble hits than most comparable devices on the market

SAFESWAP™

Safe Swappable Battery for 24/7 operations

HEIGHTEN PROCESSING CAPABILITIES

Designed with an advanced processing platform for top performance in common applications

HIGH EFFICIENCY

It can be paired with Datalogic's HandScanner™, a hands-free scanning solution, and with Datalogic's RFID Sled, an UHF RFID reader

IMPROVED SCANNING PERFORMANCE

Heightened performance in dark warehouses or outdoor environments with a high-end 2D scan engine

WIRELESS CHARGING

Unparalleled reliability and efficiency, contactless, eliminates # 1 failure point

"GREEN SPOT" AND "SOFTSPOT" TECHNOLOGY

Provides visible good-read feedback in the noisiest of working environments, or for when you require visual feedback only in a designated quiet area

COMPLETE COMPATIBILITY

Backward-compatible with all existing Memor 10 accessories
